

## Connect to IU Wi-Fi via your Eduroam Credentials from Other Institutions

Guests visiting IU campuses have access to high-speed wireless internet on campus through eduroam, the new default wireless network for everyone.

To connect your device to the free wireless internet service using Eduroam Credentials:

1. In your device settings, make sure wireless networking (or Wi-Fi) is turned on.
2. In the list of available networks, select **Eduroam**.
3. Use your home campus email address and passphrase as login credentials.

## Guest Wi-Fi for IU visitors

Guests visiting IU campuses can access Wi-Fi by using the IU Guest network.

To connect your device to the free wireless internet service for IU campus visitors:

4. In your device settings, make sure wireless networking (or Wi-Fi) is turned on.
5. In the list of available networks, select **IU Guest**.
6. If your browser doesn't open to the IU Guest page automatically, launch your browser.
7. On the "IU Guest WiFi" screen, enter your email address, check the box to accept the terms of use, and then select **Connect**.
